### SUMMARY

Experienced Frontend Developer with 3+ years of full-stack development expertise and a strong background in industrial engineering. Proficient in modern frontend technologies (React, Vue.js, TypeScript) and backend tools (Node.js, Java, Python). Passionate about building scalable, user-friendly applications and exploring emerging technologies like AI/LLM. Seeking opportunities to contribute to innovative projects while continuing to grow as a developer.

### SKILLS

**Frontend:** HTML, CSS (SCSS), JavaScript, TypeScript, Vue.js, React.js, Redux, Next.js, Responsive Design, Debugging

**Backend:** Node.js, Java, Python, GraphQL, MongoDB, Firebase

**Tools:** Git, Cypress, Figma, Bitbucket

**Other:** Software Testing, API Integration, Debugging

### EXPERIENCE

#### Full Stack Developer

Freelance / Full-time

Jan 2025 — present

Remote

- Building mental health mobile app
- Technologies: Typescript, ReactNative, Firebase, Figma

#### Full Stack Developer

Khresterion / Full-time

Jan 2023 — Jan 2025

Remote

- Co-led the development of a Component Library, streamlining UI consistency and reducing repetitive code across projects. The library became a foundational tool for all frontend teams, cutting development time significantly
- Resolved 50+ customer-reported bugs improving app stability.
- Participated in daily stand-ups to provide updates and collaborate with team members.
- Technologies: Typescript, Vue.js, Java, Cypress, Bitbucket, Figma, MongoDB

#### Frontend Developer

Sanomind / Part-time

Nov 2021 — Dec 2022

Remote

- Implemented SSR features, leading to measurable improvements in page load times and SEO performance.
- Fixed existing bugs and implemented new design layouts.
- Technologies: Javascript, React.js, Next.js, GraphQL, AWS Amplify, AWS AppSync, Git, Figma

#### Frontend Developer Intern

AcceleratorApp / Full-time

Oct 2020 — Apr 2021

Remote

- Developed dynamic PDF templates using EJS, automating previously manual processes and saving the team significant time.
- Implemented Right-to-Left (RTL) UI support for Arabic users.
- Debugged and resolved existing app issues.
- Technologies: SCSS, React.js, GraphQL, Git.

### OTHER EXPERIENCE

#### SAP Consultant
